FELINE DEVELOPMENT.
It seems to me from the many ar-
ticles I meet with in scientific journals
as well as in the general press, and from
my own observations, too, that the cat
family are constantly growing in the
general estimation in the high qualities
of sagacity and affection. In fact, I be-
lieve they stand better than they did
forty years ago—all the obnoxiousness of
Mrs. Swishelm, the champion cat-hater,
to the contrary notwithstanding. Here
is our "Nig," for instance, manifesting
a trait altogether new, as it seems to me
—in this: he likes to ride as well as a
coach dog. He cries almost every day
to ride to town in the buggy, and is al-
ways ready to go out with the team
when we are hauling in hay or grain or
husking corn, provided he can ride. If
one will hold him in his arms he also
delights to ride on horseback. His
pleasure is manifest in a remarkable
degree whenever he is allowed the
luxury of a ride, either in any kind of
vehicle or on horseback, and his cries
are altogether pitiful when he is told
that he cannot go. This singular habit
seems to have been a natural one with
him, for he never had any special train-
ing in that direction. While cats are
ordinarily frightened out of their wits
by any attempt to give them such a
ride, our "Nig" is never so happy as
when he is thus indulged.—American
Naturalist.

WAGER \$500.00

To Whom it May Concern.

During the thunderstorm in August, 1882, the County of Middlesex, Ont., alone suffered
to the extent of from \$50,000 to \$85,000 in the destruction of dwellings, barns and out-
buildings. Not one of the structures consumed was furnished with rods from the Globe
Lightning Rod Company of London, although there are thousands and thousands of feet of
our rods erected upon the farm houses and barns in Middlesex Co., and over 10,000 being
erected within the city limits alone during the past two years, the statements of a few were
acres to the contrary notwithstanding. The Globe Company, in order to show their confi-
dence in the goods manufactured and sold by them, are prepared to place the sum of \$500.00 in
the hands of His Worship the Mayor (or any other responsible citizen in London) against a
similar amount of deposited by any person or persons who can prove, that a building pro-
vided with suitable rods from the Globe Company has been struck during either of the recent
thunderstorms which have visited Western Ontario. The money to be divided between the
different charitable institutions in Brandon. Orders by mail promptly attended to.

Our aim is not only to sell goods lower than they can be bought elsewhere, but to give newer
and better quality for the money, nor do we reduce the price of a few lines to offer customers merely
as bait, but you can rely on finding everything away down beyond competition. Bear in mind a
dollar saved is a dollar made. And if you wish to lay out your money to advantage, all we kindly
ask of customers is not to buy before seeing our goods and prices. It is a pleasure to show goods
and deliver them to any part of the city.

THE TROUBLE In Brandon IS OVER.

WHITEHEAD

AND

WHITELAW

have done much to set the public mind at
rest, and those who have heard of them or
given them a trial seldom go elsewhere in
search of cheaper goods or better value. Their
stock is most complete, especially in Groceries,
Provisions, Clothing and Staple

Dry Goods!

They sell so cheap that many express sur-
prise and wonder how it is, to which they
answer, first, they thoroughly understand their
business, they secure the best value that cost
and experience can produce, their expenses
are low, they do their own work, and try to
please all who entrust them with an order.

The Brandon Daily Mail.

THURSDAY, JULY 5, 1885.

It is the opinion of a great many well wishers of the Government that instead of selling the lands at auction, as is now being done, it would be better by far to leave them open for homesteading and pre-empting. Where land is bought at auction, in most cases the purchasers are speculators, and once it passes into their hands the homesteader is shut out.

Whatever may be the wisdom of the Government's policy in the matter it is clear that homesteaders have little or no chance. The fact that even speculators are not purchasing suggests that the bottom has completely fallen out of land speculation, and no one will rejoice at this event more than will the intending homesteader. The Government terms, even at the auction sales, are certainly liberal. The upset price per acre for the farm lands is \$2.50, and \$10 per acre for coal lands, one-fourth down and the balance in three annual instalments, at six per cent interest, but on the whole we think that it would be better to throw them open for homesteading and pre-empting, and let the auctioneer's hammer rest.

The Buffalo Courier is an able journal, but its ability cannot make the Mail believe that Canadian annexation to the United States is desirable. Canadians have no wish to become United Statesians whose history and associations are not those of Canada. Canadians are already developing a type and physique of their own. These may in some respects resemble those of our neighbors, but there will be considerable difference, owing to the more northern latitudes, and the fact that our people for the most part are of a hardy and healthy stock, and they wish to perpetuate these qualities.

The Twelfth street journal is still harping away on the question of disallowance, grinding out melancholy wails at what it alleges to be Federal usurpation. It says, last evening:—"If the construction of independent lines of railway in the province was calculated to inflict an injury upon the rest of the Dominion, the Federal Government would be justified in disallowing their charters. But who," it continues, "is to decide whether it would be an injury or not?" The Federal Government would not be justified in doing anything of the sort. It is the Federal Parliament, and not the Government, that are the judges. The Grit organ starts wrong. It was the Federal Parliament that ratified the Syndicate contract, and the disallowed Acts were in plain contravention of that bar-

gain. Parliament defined in that contract what railways in this province could not be built without interfering with the agreement, hence the Provincial Acts were *ultra vires* of this Province. They were passed not only in direct contravention of the B. N. Act, but of the Syndicate contract especially. It is all very well for the Sun to assert that the *ipse dixit* of the Minister of Justice is all that has been pronounced in this matter. Every intelligent reader of the Sun knows that taking many things for granted which are not conceded, is one of the characteristics of that shining sheet. It has a plausible way of dealing with Disallowance, but plausibility is not necessarily truth or argument. In one breath our contemporary admits the veto power, in another it conveniently denies it. Where there is so much mystification and contradiction it is evident that some one has got out of his element, and is treading on air in the belief that he will knock out a star from heaven at each step of his advanced head.

The Provincial Treasurer brought down his Budget on Tuesday last. We have not space in this issue to give the fiscal statement in full, but we will give it in detail to-morrow. The total revenue from all sources is estimated at \$566,729,04, while the summary expenditure is placed at \$506,309,38, leaving a surplus of \$60,329,66.

Police Penalties.

In Justice Fortier's forum yesterday, the case of assault Lang vs. Bradley was dismissed.

In the dog case Helliwell vs. West the matter was dismissed, the justice ruling that he had no jurisdiction. As both litigants claimed the possession of the dog, and as there were prospects of war and belligerency ahead Chief McMillan took the nine points in his possession, leaving the respective claimants of the animal to replevin as they might see fit.

John Drummond, who wanted to roam around scantily dressed while under the influence of nitro-glycerine, paid for his circus to the extent of \$7.75, and George McDonald was fined \$8.50, costs included, for being paralyzed.

Messrs. Butler and Fisher, fast and furious drivers, appeared on the charge of an infringement of a by-law on fast and furious locomotion of vehicles. They were admonished, and the case was dismissed.

Persian Serenade.

Hark! as the twilight pale
Tenderly glows,
Hark! how the nightingale
Wakes from repose!
Only when, sparkling high,
Stars fill the darkling sky,
Unto the nightingale
Listens the rose.
Here where the fountain ride
Murmuring flows,
Airs from the mountain side
Fan thy repose.
Eyes of thine, glistening,
Look on me, listening,
I am thy nightingale,
Thou art my rose.
Sweeter the strain he weaves
Fainter it flows
Now, as her balmy leaves
Blissfully close.
Better than minstrelsy
Lips they meet kissing—
Silence thy nightingale—
Hiss me, my rose!

Rev. Mr. Lawson leaves to-day for Appleton.

Rev. Mr. Ladner and Rev. Mr. Spence, C.M., preachers, are expected to arrive here in a few days.

Robert Thompson and Thos Wilson were up to-day for obstructing sidewalk on 5th street. They were fined the amount of the costs.

We understand that the temporary strike of the railway workmen between this point and Regina has been amicably settled. The men have gone to work again.

Citizens should remember that when they wish to occupy the streets or sidewalks with any temporary obstruction to escape the fine they must apply to the Mayor and Council for permission. The by-law is inflexible in this respect.

Mr. D. B. Woodworth, M.P. for King's County, Nova Scotia, and brother of Brandon's local M.P., and Mr. P. Woodworth, have arrived in Winnipeg, and will visit Brandon in a few days.

They are progressing slowly with the Imperial Bank transposition. A bank in the middle of the street is not often witnessed, except a snow bank or a mountebank, but not an Imperial bank, and rarely a sand bank.

The inmates of the Beaubien House, one of Brandon's popular hostels, can tell you all about bears, black bears young and old. A youthful bruin yesterday was a guest at the Beaubien, and he ran a muck of the premises. There was some hysterical acting which bruin did not quite understand.

Mr. Gair, of Oxford Mills, Ont, is on a visit to his relative and friend, ex-Alderman Bower, of the firm of Bower, Blackburn, Standell & Porter, Brandon's general wholesale merchants. Mr. G. is delighted with Brandon's situation and he is going to record his approval of Brandon by investing some of his superfluous cash in its real estate.

Mr. Harris, of the Harris House, another of Brandon's popular hotel keepers, has leased the Transit House, and is fitting it up in first class style. It is to be run on the regular Transit principle. Farmers will find the Transit everything they want. Good stabling will be in connection with the house.

THE MAIL believes the strictures in last evening's Sun in reference to the late "tug of war" at the Portage are regarded by nearly every one in town and by our fireman especially, as entirely out of taste and uncalled for. The fireman themselves speak in the highest praise of the royal treatment they received from the people of the Portage, and they do not concur in the spirit which prompted the Sun's paragraph of last evening.

Mr. W. Templeman, of Almonte, has in press for Mrs. McDougall, whose literary cognomen is "Nora," a book entitled "The Days of a Life," a story descriptive of the days of the life of an Irish landlady. The book is to contain 450 pages and will be handsomely bound. Mrs. McDougall has at one time correspondent of the Montreal Witness. She is a clever writer, and we hope that her book will be extensively purchased and read.

The advance troupe of pastepotters and placards belonging to W. W. Cole's great show are already exhibiting their practical skill. The various fences, buildings, posts and other structures throughout the city are ornamented with panoramic pictures of this great world renowned circus. Even the store windows are decorated with the lithographic reminders of the Russian Roller Skaters, Gallery of Wax Statuary, Museum, and the Snow White Buffalo. When the Grand Spectacular Parade of these shows takes place the sight will be witnessed by a multitude of our wonder-stricken citizens who are bound to see the elephant.

A regular stiff breeze from "left to right" was blowing during the whole of the shooting. The marksmen say the gala was the worst yet as it came in gusts with a damp, dull changeable light but each man only made one miss which showed the importance of practicing in all sorts of weather.

Members who intend or wish their score to tell for the Medal should attend the practices on Tuesdays and Saturdays—The score to-day is No 1 on that sheet.

Local Legislature.

FIRST SESSION.

Fifth Legislature.

WINNIPEG, July 2nd.
THE Speaker took the chair at half past three p.m.

REPORTS.

Hon. Mr. Norquay presented the fifth report of the Committee on Law Amendments. Adopted.

CHURCH TRUSTEES &c.

Hon. Mr. Norquay moved the second reading of the bill to amend Chap 50 Consolidated Statutes of Manitoba, intituled An Act to Provide for Holding of Land by Trustees on behalf of Church or Religious Bodies.

Bill read a second time and referred to the committee on Law Amendments.

AUDITING PUBLIC ACCOUNTS.

Hon. Mr. Norquay moved the second reading of the bill to provide for the auditing of the Public Accounts.

The bill was read a second time and referred.

Hon. Attorney-General Sutherland moved the second reading of the bill to amend Chap. 31 intituled an act respecting the Court of Queen's Bench.

Bill read a second time and referred.

Mr. Martin moved the second reading of the bill to amend the law relating to Mechanics' Liens. Its only object was to change the time from five to thirty days. At present, mechanics liens, to be good, must be filed within five days from the time the work is done. There was a general feeling that the time should be extended to at least thirty days. He wished to have the second reading and refer the bill forthwith to committee of the whole.

Mr. Jackson would object to going into committee of the whole as proposed. This was a bill which vitally concerned the loan companies of the Province, and it should not be rushed through.

Bill read a second time.

The bill to confirm and amend the charter incorporating the town of Morris, to legalize certain by-laws, and to incorporate the town of Morris, was, in Mr. Leacock's absence, moved for a third reading by Mr. Woodworth.

Mr. Tennant, seconded by Mr. Martin, moved in amendment, that the bill be read a third time that day six months.

The amendment was put and carried on the following division:

Yeas—Larivie, Cyr, Fairbanks, Tennant, Lecompte, Killam, Greenway, Hay, Goulet, Martin—11.

Nays—Norquay, Brown, Sutherland, Davidson, Wilson, Allen, Woodworth, Douglas, Young and Jackson—10.

MILLS AND MILLERS.

The House went into Committee of the Whole on Mr. Crawford's bill respecting grist mills and millers, Mr. Lecompte in the chair. The discussion that arose on this bill, as to how to curb the millers, was long and lively. Committee reported. Report adopted.

FIRST READINGS.

Following bills were introduced and read a first time:

By Hon. Attorney-General Sutherland—An Act respecting the investment of monies paid into Court of Queen's Bench (equity side) and the security thereof.

By Hon. Mr. Larivie—An Act to legalize certain by-laws of the corporation of the municipality of St. Boniface.

A bill intituled the Manitoba School Act.

By Hon. Mr. Norquay—An Act respecting the solemnization of marriage.

An Act respecting the acquisition and sale of the public lands of the Province.

WINNIPEG WATER POWER CO.

Mr. Conklin's bill to incorporate the Winnipeg Water Power Co. was read a second time and referred.

The House adjourned till three p.m., Wednesday.

The Speaker took the chair at three o'clock. Several reports were presented and adopted.

THE MORRIS BY-LAWS.

Mr. Leacock gave notice that at the next meeting of the House he would move to rescind the vote for six months' postponement of the bill to confirm and amend the charter incorporating the town of Morris, to legalize certain by-laws and to incorporate the town of Morris. The ground on which the rescinding of the vote was asked had been placed improperly on one paper for yesterday, whereas it had been fixed for to-day; and, relying on that arrangement, representatives of the people of Morris, who had attended to see to the third reading found that the bill, taken out of its regular order, had been thrown out altogether. It was too important a matter to be given its quietus in that irregular fashion.

MANITOBA TRAMWAY ACT.

Mr. Killam asked what was the reason of the long delay in transmitting to the Secretary of State a properly authenticated copy of the Manitoba Tramway Act.

Hon. Mr. Norquay said that there had been no particular reason for any delay. When the Secretary of State had requested a copy of the Act, it was forwarded.

CHARTER OF THE CITY OF WINNIPEG.

The House went into committee of the whole on Mr. Conklin's bill to amend the charter of the city of Winnipeg, passed May 30, 1882, and to consolidate the same.—Capt. Allen in the chair.

On the 2nd clause (as reported by the private bills committee) providing for a 7th ward and its representation in the city council being put.

A lengthy discussion followed. It was finally amended so that increased representation should be given, to wards 4 and 5.

The committee rose and reported. Report adopted.

LAKE WINNIPEG MINING CO.

On motion of Mr. Allen the House went into committee of the whole, to consider the bill to incorporate the Lake Winnipeg Mining Co. Mr. Bell in the chair. Report adopted. Bill finally passed.

SOUTH-WESTERN JUNCTION RAILWAY.

On motion of Dr. Wilson, the House went into committee of the whole on the bill to incorporate the South-western Junction Railway, Mr. Lecompte in the chair. Report adopted. Bill passed on suspension of rule.

MINNESOTA BY-LAWS.

House went into Committee of the Whole on Dr. Harrison's Bill to legalize by-law 35 of the county of Minnesota, Mr. Giot in the chair. Bill passed all its stages on suspension of rule.

KEEWATIN MINING CO.

House went into Committee on the whole on Mr. Allen's bill to incorporate the Keweenaw Mining Co., Mr. Davidson in the chair. Bill passed all its stages.

ST. BONIFACE CORPORATION.

Hon. Mr. Larivie's bill, relating to the corporation of the municipality and town of St. Boniface, was read a second time and referred.

PROVINCIAL LAND SURVEYORS.

On motion of Mr. Killam the bill to amend and consolidate the act respecting Provincial Land Surveyors, was amended by substituting \$1,000 of \$100 as the amount of the amount of the bond to be entered into for the true and faithful performance of the duties of the office of P. L. S.

Mr. Giot moved the addition of a clause providing that an application for the office of P. L. S. on passing the Board of Examiners and payment of the usual fees, shall be entitled to receive a commission as P.L.S.

This motion was lost. Yeas 11, nays 10, and the bill passed.

From December, 1788, until March, 1789, the Delaware and Ohio rivers were both frozen and navigation suspended.

In 1790 snow fell two feet deep in Ohio, and the river was so firmly frozen that mounted troops and artillery wagons rode across by the hundred.

Cats are called "pussy" by some people, but why they call them "pussy" instead of by their particular name is intimately and closely connected with the question why red apples grow on green-leaved trees. The word "pussy" is the Tamil word for cat, and has been introduced into the language through folklore. Nearly all fairy stories about cats come to us through the Persian, which preserves the Tamil word.

THE first Mayor of New York was Thomas Willet, who was born in England in 1611. He came to Massachusetts when 18 years old, and in 1647 succeeded Miles Standish in the military command of Plymouth colony. When the English took New York from the Hollanders, in 1664, Capt Willet was chosen Mayor of the city and administered the Government for two years, at the expiration of which he returned to New England, where he died.

PRIS IX, was the 263rd Pope. Of the whole number fifteen were French, thirteen Greeks, eight Syrians, six Germans, five Spaniards, two from Africa, two from Savoy, and two from Dalmatia. England, Portugal, Holland, Sweden and Crete gave one Pope each; Italy 194. All Popes since 1523 have been elected from the Italian Cardinals. Of the 263 Popes eight died within a month after their accession to the Pontifical throne, forty have lived only one year on the throne, twenty-two between one and two years, fifty-four between two and five years, fifty-seven from five to ten years, fifty-one from ten to fifteen years, eighteen from fifteen to twenty years, and nine have lived more than twenty years.

THE famous hanging gardens were built by Nebuchadnezzar to gratify his wife Amyitis, a native of Media, who longed for something in that country to remind her of her mountain home. These gardens consisted of an artificial hill 400 feet on each side, rising by successive terraces to a height which overtopped the walls of the city. The terraces themselves were formed of a succession of piers, the tops of which were covered by flat stones sixteen feet long and four feet wide. Upon these were spread beds of matting, then a thick layer of bitumen, covered with sheets of lead. Upon this solid pavement earth was heaped, some of the piles being hollow, so as to afford depth for the roots of the largest trees. Water was drawn from the river to irrigate these gardens, which thus appeared like a hill covered with verdure.

How Sponges are Caught.

A correspondent of a New Haven paper tells how they fish for sponges in the Bahamas: When a vessel arrives at the fishing ground it is anchored, and the men, in small boats, proceed to look for sponges in the water below. The water is a beautiful light blue color, and so clear that a sixpence can easily be seen on the white, sandy bottom in thirty-five to forty feet of water. Of course when there is no wind and the surface of the water is still, the sponges are easily seen; but when a gentle breeze is blowing a "sea-glass" is used. A sea-glass consists of a square pine box about twenty inches in length, a pane of glass about ten by twelve inches placed in one end, water-tight. To use it the glass end is thrust into the water, and the face of the operator is placed close to the other. By this means the wave motion of the water is overcome and the bottom readily seen. Sponges, when seen at the bottom attached to rocks, look like a big black bunch. They are pulled off their natural beds by forked shoots, which are run down under the sponge, which is formed like the head of a cabbage, and the roots pulled from the rocks. When brought to the surface it is a mass of soft, glutinous stuff, which to the touch feels like soap or thick jelly. When a small boat load is obtained they are taken to the shore, where a crawl is built in which they are placed to die, so that the jelly substance will readily separate from the firm fiber of the sponge. These crawls are built by sticking pieces of the brush into the sand out of the water, large enough to contain the catch. It takes from five to six days for the insect to die, when the sponges are beaten with small sticks, and the black, glutinous substance falls off, leaving the sponge, after a thorough washing, ready for market. To the fisherman generally the occupation is not a lucrative one. I am told the wages will hardly average three dollars per week besides board. There is but little diving for sponges, except for a particularly fine bunch which cannot be gotten by the hook. The sponge is formed by small insects, and is the hive in which they live. Different qualities are found growing side by side, although in certain regions the finer and more valuable sponges are found.

A Buff.

"Good mornin' Mistus Snow," said a juvenile female Ethiopian, as she popped her head into the domicile of a motherly-looking woman of her own race and color.

"Mornin', honey," said the matron with a pleasant smile. "You's a lookin' bright and peert as a little jaybird this mornin'."

"How's your mamma dis mornin'?" de good ole soul.

"Mamma's poety well, all but de rheumatiz."

"Pore soul; feared she never go over that rheumatiz o' hers. Gettin' too ole now. How's your fadder?"

"Fadder's poety well."

"Pore soul; Ise glad to hear it. An what has my little hummin' bird got to say to Aunty Snow dis mornin'?"

"Mamma sent me fur to ax yer fur de loan of yer fumble."

"De loan of my fumble? Hear de brat! Whar's dat ball o' beewax whas I loan yer mamma las' week?"

"Don't know."

"I dar say you don't know. Let me look inter dat mouf o' yours. You good-fur-nuffin' little brat, dar's beewax stickin' in every toof ye got in yer head!
